Remote

About Us:

SEO Smoothie is a full-service digital marketing agency, mainly specializing in SEO but also providing PPC, content marketing and website optimization.

We're constantly growing and welcome talented professionals to join our talent pool for future opportunities.

Front-End Developer Job Overview

The Front-End Developer builds and maintains user-facing features for websites and web applications. Focuses on creating responsive, high-performance, and visually appealing interfaces that enhance user experience.

Experience:

2-5 years in front-end development or web development roles.

Tools & Technologies (Optional):

- HTML, CSS, JavaScript, React, Vue.js, Git, Chrome DevTools.

Responsibilities

Responsibilities: Develop, Optimize, and Enhance

In this role, you'll implement front-end solutions that follow SEO best practices, improve site performance, and enhance user experience. You'll collaborate with SEO and content teams to ensure websites are structured for search engines, including proper HTML semantics, responsive design, fast loading times, and optimized metadata. Your work will directly influence visibility, rankings, and user engagement across client projects.

- Develop and maintain responsive web pages and interactive features.
- Collaborate with designers, SEO, and marketing teams to implement UI/UX designs.
- Optimize websites for speed, performance, and SEO best practices.

Employment Type

Full-time

Job Location

Remote

Date posted

August 16, 2025

- Troubleshoot and debug front-end issues.
- Stay updated with the latest front-end technologies and trends.
- Ensure cross-browser and cross-device compatibility.

Qualifications

Qualifications: Technical and SEO Expertise

This position is perfect for developers experienced in HTML, CSS, JavaScript, and modern front-end frameworks, with a strong understanding of SEO fundamentals. You should be comfortable analyzing performance metrics, implementing optimization techniques, and collaborating with cross-functional teams. Knowledge of structured data, Core Web Vitals, and accessibility standards is a plus.

- Proficiency in HTML, CSS, JavaScript, and front-end frameworks (e.g., React, Vue.js).
- Experience with responsive design, SEO-friendly coding, and performance optimization.
- Familiarity with version control systems (e.g., Git).
- Strong problem-solving and debugging skills.
- Good communication and teamwork abilities.

Job Benefits

Flexible Remote Work with Global Impact

Working fully remotely, you'll manage projects for clients across Europe, USA, LATAM, and other international markets. You'll enjoy the freedom to structure your workday, implement best practices, and experiment with new front-end technologies while seeing the measurable impact of your work on SEO performance.
