

Guest-post and link building services

Dear Indian SEO colleagues,

Please, stop contacting me and offering your [SEO Backlink](#) Services!

I don't care about them and the hundreds of [blogs](#) you have!!!

You have always been polite to me and I try to answer you in the same way, but everything has its limits...

Asking me how my Christmas break was in mid-March or sending me broken links doesn't seem right to me. At best, the links I receive to the "Best SEO Agency" websites are newly built and not completely finished or have been just rebranded and published but without any prior use of a test environment or QA.

I want to inform you that from now on, each of you will receive your FREE Backlink in our [SLOPPIEST SEO Category](#).

Bear in mind that our DA and DR are not great so the effect will be even better...

I wish you all the best and a lot of success in your business!

Sincerely yours,

Marin Popov

CEO at SEO Smoothie
